About NEUF Architect(e)s

NEUF Architect(e)s is a renowned architectural firm in Canada, with an important portfolio of clients such as Bombardier, IKEA and Pratt & Whitney. The firm's main goal is to achieve clients' satisfaction by providing them with the best solution for their needs, an objective that is being met since 1971.

The Solution

When NEUF Architect(e)s, previously known as DCYSA, moved to its brand new office, the firm chose to welcome its clients in a modern lobby by integrating HEICO lighting™'s red modules into its front desk.
